Professional Summary

Front-End Developer specializing in React, TypeScript, and Next.js, with a strong focus on building responsive, user-centered, and high-quality web applications. Experienced in API integration, state management, and modern front-end best practices through multiple real-world projects. Passionate about creating intuitive user experiences and continuously learning new technologies. Successfully transitioned from a sales accounting background into front-end development through intensive self-study and hands-on project development.

Projects

- **[PawGallery](#)** (React, TypeScript, REST API, Responsive Grid)
Built a dog breed explorer application with API integration, search functionality, detailed breed information, and a responsive grid layout.
- **[Menuo – Restaurant Menu App](#)** (React, Context API, Responsive Design)
Developed a fully responsive café menu application featuring categorized products, quantity management, shopping cart, and dynamic order summary.
- **[Weather App](#)** (React, TypeScript, REST API, Responsive Design)
Developed a weather application with city search functionality, dynamic weather data display, and fully responsive UI.
- **[Currency Converter](#)** (React, TypeScript, Tailwind CSS)
Created a real-time currency converter (USD to IRR) with a modern, responsive interface using TypeScript and Tailwind CSS.
- **[Admin Panel](#)** (React, TypeScript)
Built a clean and user-friendly admin dashboard for product management, including category organization, pricing controls, advanced filtering, and responsive design.

Front-End Development Training & Personal Projects (2024 – Present)

- Intensive self-study and practical development focused on modern front-end technologies.
- Built and deployed multiple complete real-world applications using React, TypeScript, Next.js, and Tailwind CSS.
- Strengthened skills in responsive design, API integration, state management, clean code, and version control (Git).

Work Experience

Sales Accounting Specialist Import-Export Company, Tehran (2018 – 2024)

- Managed procurement operations and coordinated production workflows to ensure timely delivery of goods.
- Handled sales accounts, invoicing, payment collection, and coordination between sales and production teams.
- Developed strong skills in time management, attention to detail, teamwork, and working under pressure — transferable skills now applied in software development.

Education

Bachelor's Degree in Information Technology Islamic Azad University, South Tehran Branch
